With over a year of experience in development (React, Node.js) and currently pursuing a Bachelor's degree in Systems, Networks, and Cloud Computing at ESGI, my passion is building robust solutions. My objective is to continue growing my expertise on complex projects. While I am not actively searching, I remain open to challenging opportunities.

SKILLS

Code

Typescript / React.js
Node.js / Express.js
SQL , MongoDB , Firebase
PHP / Laravel / Symfony

Tools

Figma, Photoshop, Github, Trello, Notion,
Microsoft office (Word, Excel, PowerPoint)

Web Developer RNCP Bac+2

Web@cadémie by Epitech 2023 - 2025

1st year Computer Science Bachelor

Sorbonne université 2019 - 2020

Bac S Mention Bien

LPO Nord Grand Terre 2018 - 2019

OPEN SOURCE PROJECTS

Generative Pets

REACT.JS/ NODEJS / LLM / POSTGRESQL / PRISMA

Development of a web/mobile application integrating generative artificial intelligence to advise users in their pet adoption process.

- Dialogue system enabling complete conversation with AI
- Prompt engineering to provide the model with contextual information and ensure relevant advice
- Integration of a Large Language Model (LLM) via online API

LetterEasy

REACT.JS/ NODEJS / LLM / POSTGRESQL / PRISMA

Creation of a micro SaaS designed to help create cover letters based on user's personal information.

- Generate cover letters using artificial intelligence
- Ability to edit the letter using artificial intelligence

Instagram clone

REACT.JS/ TYPESCRIPT / SQL / WEBSOCKET/ REDIS

Large-scale project created from scratch by myself alone, over a two-month development period. The goal? Challenge myself and improve my skills.

- Dynamic feed
- Real-time comments
- Instant messaging

Twitter Clone

PHP / JQUERY / MYSQL

Group project, created over a 3-week period.

- Using MVC model
- Object-oriented programming

EXPERIENCE

Full Stack Developer - Holis

Sep. 2024 – Now

- Improve UX and UI to streamline the presentation of environmental and social results
